JONCKERS MARKETPLACE

What is Jonckers Marketplace?

JONCKERS Marketplace is an integral part of Jonckers' WordsOnline Translation Platform. It enables our customers of access to our LTS service (Language Talent Sourcing), in which we give access to a selected pool of free-lance translators and linguists who can work directly for our customers.

How it works

JONCKERS Marketplace is connected to Jonckers supplier management system, a uniquely developed database of qualified resources. Customers can search for resources base on; services, source and target languages, performance rating etc. They can also browse through a filtered resource list to check the history performance feedback and availability of an individual resource. Customers can add /remove the specific resource into/from their programs, or provide feedback for the resources they have worked with.

JONCKERS MARKETPLACE (CONTINUED)

The Sales Statement

WordsOnline marketplace gives the customers the visibility of who is working on their projects and how they perform. In WordsOnline Marketplace, customers can quickly select the resources they need based on service, source and target languages, performance rating etc. They can add/remove the selected resource into/from their programs, or check their history performance feedback and availability.

The Key Values

- Carefully selected and constantly monitored pool of subject-matter experts.
- Strict confidentiality.
- Pure on-demand approach.
- Scalability.

The Unique Selling Proposition (USP)

One-stop-shop to browse, research, and select the best people to work for you.
